2. The two dumps of used oil of Land Mecklenburg are located in Rostock-Bramow (M 55/O 81). Used cylinder oils and machine oils besides various other motor and compressor oils from these depots are sent for processing to the Mineral Oil Plant in Mittelbach near Hermitz (M 51/K 66). Used turbine and transmission oils are processed in Klaffenbach (M 51/K 65) and used transformer oils in Nordhausen (M 52/D 12). **

25X1A * [REDACTED] Comment. For lists of fuel dumps and filling stations, see Annexes 1 and 2. The list of filling stations seems to be incomplete. In 1949, there was a total of 566 filling stations in Land Mecklenburg. The filling stations and fuel dumps are minor installations, belonging to the DDR, and not under Soviet control. However, since they are liable to confiscation by the Soviets at any time they must not be overlooked in assessing the fuel supply situation of the Soviets in their zone of Germany. For facilities of fuel dumps and filling stations, see Annex 3. Abbreviations used in the tabulations include the following:

GTL: Genossenschaftstanklager - Cooperative Fuel Depot;
MAS: Maschinenausleihstation - Tractor and Agricultural Machine Station;
KWU: Kommunalwirtschaftliches Unternehmen - Communal Enterprise.
DKMZ - Deutsche Kraftstoff und Mineraloel Zentrale (German Fuels and Mineral Oils Central)
DAPA - Dapolin (?)
DAPG - Dapolingessellschaft (?)
T-S Mixture - mixture of oil and gasoline for a two-stroke motor (?)
GTS - Genossenschaftstankstelle (?) - Cooperative Filling Station

25X1A ** [REDACTED] Comment. The critical oil situation has forced the authorities in the Soviet Zone of Germany to collect and re-process used oils.
